## DEATH OF JOHN McBRIDE.

## An Overdose of Morphine the Cause.

Whether the Result of a Mistake or Suicidal Mania, Will Ever Remain a Grievous Mystery.

On yesterday morning at 4 o'clock John McBride became inanimate. Between four and five the evening before he called at the drug-store of Reber & Co., and purchased 25 cents worth (10 gr.) of Sulphate Morphine, saying that he wanted to use it in making salve. We are told that he went home almost immediately and remarked to his wife that he would lie down and “take a nap.” In a few minutes supper was ready and when he was called they were unable to awake him, and at once sent for Dr. Campbell who discovered that he was suffering from the effects of Morphine. The Dr. at once applied the stomach pump and thoroughly washed out the stomach, but too much of the dread drug had already been absorbed, although not more than thirty minutes had elapsed from the time of his leaving the drug store until he received treatment. By weighing what remained of the Morphine it was found that he had taken between 4 and 5 grains. Although every possible treatment was persistently administered by Drs. Campbell, Pullen and Blosser, who constantly attended him, he never rallied or showed any signs of consciousness up to the time of his death as stated above. His family have the sympathy of the whole community in this, their sad bereavement.

Mr. McBride was the Superintendent of the Hocking Canal under the last Democratic Board of Public Works, in which position he rendered efficient service to the State. He had also held several other positions of trust and profit of a local character, and was of a happy generous disposition and was much respected in the community. His funeral will occur from St. John's Catholic Church, Sunday morning at 10 o'clock, A. M.
